## Ciano's Diary Alliance Is Signed; New Gossip About Hitler's Love-Life

How Goering Wept in Frustration Because Ribbentrop Got a Medal

This is the fourth article in the series based on revelations of Count Ciano's diary. It records the signing of the alliance with Germany and the increasing strain on Italy's ties with Great Britain.—EDITOR.

Copyright, 1945, by The Chicago Daily News, Inc., and the Chicago Tribune. All rights reserved for all countries, including right of translation.

April 15-June 1, 1939.

Count Ciano, Mussolini's son-in-law, brought home a new alliance from Berlin May 1939 and some fresh gossip in his notebook about a head full of bedroom companion of Hitler, and of Goering in tears because Ribbentrop had been awarded Italy's highest decoration with a silver collar of love knots and roses.

Ciano's intimate diary, which he kept from the period immediately after the successful pact against Albania began with a snubbed press appeal from President Roosevelt, and ended with an interview between Mussolini and the British ambassador on such an arrogant note that Sir Percy Laroche literally "talked to himself" all the way home.

Ciano wrote: "Hitler... Roosevelt has sent a message... I am at first... to read it. Then he described it as the result of a..."

U.S. May Soon End Rationing of Meat

WASHINGTON, Aug. 22.—(AP)—Sign of an early end to meat rationing in the United States looked latest night.

The office of Price Administration indicated that more meat might be available for ration points beginning Sept. 1. Officials of some other agencies were willing to bet that before September is over, the whole meat program will be a thing of the past.

Agriculture Secretary Anderson already has said that if there is a heavy run of cattle to market this month and next, he believes it will be possible to eliminate rationing in September.

OTTAWA, Aug. 22.—(CP)—A Canadian preparing to submit a meat rationing within two weeks... made known the fact that "the meat shortage in Paris and most of the western European countries is more severe than at any time since the beginning of the war."

## First Cabinet Shifts Abbott Defence Minister As McNaughton Retires

By FRANK FLAHERTY

OTTAWA, Aug. 22.—(CP)—Gen. McNaughton, who retired from the top Canadian Army job in this war and a few months later took on the toughest portfolio in the cabinet, last night returned to private life.

Prime Minister Mackenzie King announced the general's resignation as defence minister in the first of a series of cabinet shifts and moves to consolidate war-expanded government departments on a peacetime basis.

Hon. Douglas Abbott, navy minister, has been appointed to replace Gen. McNaughton, who will administer the army as well as the navy department. Eventually all three defence services—army, navy and air force—will be under one minister with separate deputies.

To REPEAL ACT  
Mr. King also announced that the National War Services Department Act will be repealed at the next session of parliament and that steps are being taken to distribute the functions of that department, now under Hon. J. J. McCann, to other departments.

Before the end of the week, he said, he proposed to announce appointments to the two vacant portfolios—office and national revenue—as well as the choices for the speakership of the House of Commons and the Senate.

Gen. McNaughton of whose services Mr. King spoke in glowing terms, will not wholly sever ties from the army as he leaves.

## Japs Sign Surrender Aug. 31 Allies Plan Twin Landings in Japan

From CP, AP and British UP Dispatches

GENERAL MACARTHUR'S HEADQUARTERS, Manila, Aug. 22.—General Douglas MacArthur has announced that the surrender of Japan will be signed aboard the United States battleship Missouri in Tokyo Bay on August 31. Detailed plans for the occupation of Japan, followed in general the outline already broadcast by Tokyo radio.

## In 101 Street Store Firemen Battle Seven Hours To Conquer \$100,000 Blaze

City firemen battled for more than seven hours Tuesday night to extinguish a blaze that broke out in the Crescent Furniture Warehouse and the Garf Department Store at 10256-58 101 street shortly after 5:30 p.m. At 11 p.m. firemen were still dousing flaming embers.

No official estimate of the damage, caused chiefly by smoke and water, had been made Wednesday morning. The loss was partly covered by insurance. It is estimated that the loss may be as high as \$100,000.

The building is owned by Mrs. H. Robertson, 9024 113 street, and occupied by the J. Garf Department Store. Mr. Garf has the lease on the entire building and in turn leases part of the ground floor and the basement to the Crescent Furniture Company. The building, which was only slightly damaged, is valued at \$300,000. Mrs. Robertson told police that the fire was caused by a short circuit in the wiring.

It is expected that more Canadian whisky will be available soon, as will gin and rum, the paper said.

Imported Scotch whiskeys may be in short supply for several years as British distillers have a limited amount for overseas export.

The paper said it is believed an increase in alcoholic content of beer strength is not to go into effect immediately. The federal government in 1932 decreed that all Canadian distilled liquors were to be reduced to a strength of 50 per cent.

Representatives of Canadian distillers and wine producers are still at the conference to present their views against aggression.

The Germans fought campaigns for petroleum, the most valuable asset in war until now, the correspondent said.

The main source of uranium is Canada, with fields of it situated in the Arctic circle.

In the interests of military security, Canada has safeguarded her supplies and invested them in the British empire.

"It is from Canada that the basis of control of the atomic pile in the British empire, with one exception, world deposits are owned by Canada, forming the security council."

Immediate Six-Hour Day For Continent Urged in Vancouver

Vancouver, Aug. 22.—(CP)—Immediate establishment of a six-hour day throughout Canada, and the two governments were urged by Vancouver Trades and Labor Council (AFL) at a meeting here last night.

The council endorsed a resolution that the six-hour day be established "with no loss of pay" on the demand and "both organizations should take the necessary steps to enforce it if the time comes."

Japanese Politics  
Urge Diet Session

SAN FRANCISCO, Aug. 22.—(AP)—Various political elements particularly among parliamentary members, are urging the immediate opening of an extraordinary session of the Japanese Diet.

The use of plutonium to fuel atomic power houses would multiply by 100 times the world's uranium resources. But if the supply of it of 250 ships is exhausted, it would not be feasible to present known methods to make use more plutonium. Consequently, even before the war ended, scientists planned to use the previous 250 for atomic fuel only.

## Brig. R. A. Wyman Is Retiring From Canadian Army

Brig. R. A. Wyman, CB, DSO, one of Canada's best-known soldiers of the Second World War, is retiring from the Canadian Army (Active) according to an announcement by the department of national defence, Ottawa.

Now 41 years old he has established one of the outstanding records of the war. He led the first Canadian tanks across in Sicily and Normandy.

Brig. Wyman, who was invalided to Canada after being severely wounded near Falaise during the Normandy campaign, was a station with Canadian National Railways in civil life.

SERVED IN MILITIA  
Before the war he was officer commanding the 26th Field Brigade with rank of brigadier. From 1934, he commanded the 1st Army Tank Brigade, serving throughout the Sicilian campaign, and for five months of the Italian campaign.

He took the regiment overseas and in May, 1941, was appointed commander of the support group of a Canadian armored division with rank of brigadier. From February, 1942, until February, 1944, he commanded the 1st Army Tank Brigade, serving throughout the Sicilian campaign, and for five months of the Italian campaign.

He then was posted to head the Canadian Army, and in April, 1944, was appointed commander, headquarters, 2nd Canadian Armored Brigade and was mentioned in dispatches.

Main problems under discussion at the moment involve some amendments to the housing legislation. Chief among these are the following points:

Several of the insurance companies in the city are seeking housing corporations to take over the management of the city's housing program.

## J. A. King Spoke For Self Alone Asserts Fallow

The Alberta government assumes no responsibility for the actions of J. A. King, chairman of the Alberta Liquor Control Board, Acting Premier H. W. A. Fallow said here Wednesday.

According to reports Tuesday the liquor board chairman said "it is not you asking for it, it is the liquor board asking for it."

People on the jetty cheered and waved excitedly, said the news about, crowding to get a glimpse of Canada, cheered back lustily.

OTTAWA, Aug. 22.—(CP)—Approximately 100 of the 100,000 men and women scheduled to be in the city for the 1945-46 season, May 8, and the end of the year, now have been repatriated.

To Complete Work  
MONTREAL, Aug. 22.—(CP)—D. H. Carwell, director-general of shipbuilding for the Dominion of Canada, said last night there will be no further cancellations of ship orders in the Canadian yards, and that all work now on order will be completed.

Through wartime discoveries, there are now known to be more than 250 times as much uranium as there is now known to be.

Two of the metals, gold and platinum, are more scarce to produce. The third is uranium. The fourth is a common element, but only a small percentage of these elements can be made a chain reaction at present.

## Wounded Veterans Land in Dominion

HALIFAX, Aug. 22.—(CP)—Her Majesty's Canadian Forces, Canadian veterans in hospital uniforms, the hospital ship Lady Nelson docked here last night carrying 100 wounded veterans from England.

Nearly all the returning contingents of the Canadian Forces, including every military district in the Dominion, in addition there were 25 RCAP and 25 RCNVR men.

People on the jetty cheered and waved excitedly, said the news about, crowding to get a glimpse of Canada, cheered back lustily.

OTTAWA, Aug. 22.—(CP)—Approximately 100 of the 100,000 men and women scheduled to be in the city for the 1945-46 season, May 8, and the end of the year, now have been repatriated.

# Many Await Ships Priority System Is Arranged For Repatriating Dependents

OTTAWA, Aug. 22.—(CP)—The defence department, disclosing that up to July 31, 14,340 war brides and children of the Canadian forces overseas had been repatriated and 31,786 still were awaiting ships, announced yesterday that a priority system had been applied "with every effort being made to maintain a fair balance in relation to the priority of returning servicemen."

The army took over full responsibility for the dependents' repatriation program last April and since V.E. Day the heavy increase in the number of troops to be repatriated and the shipping to the Pacific, with the limited amount of shipping available, has created a more difficult problem.

At present only wives with top priorities can be granted space on returning troopships, said the department in a statement. These include wives of returned soldiers who have been discharged where the soldier's successful rehabilitation might be affected by continued separation; wives of soldiers who are in hospital in Canada, and expectant mothers. This month 300 army wives in these categories are returning.

**QUERIES ANSWERED**  
The statement added that many queries had been made as to when more wives could be brought to Canada and it quoted a repatriation official as saying:

"There are still thousands of Canadian soldiers overseas who have not seen their families for upwards of three years. It is only fair that first priority be given these men. Needless to say their wives and families in Canada take the same view."

The release continued: "The majority of dependents repatriated came during 1944 and early in 1945 before the problem of repatriating large numbers of troops brought about a stricter priority system. Throughout recent months, however, even during the heaviest troop movements, full and sympathetic consideration has been given many urgent cases."

**SPECIAL ATTENTION**  
"Repatriation officials emphasize that while wives of discharged soldiers, wives of soldiers in hospital and expectant mothers are on a general priority list, special attention is given cases of real urgency as shown by investigation. "Applications for passage are made through the Canadian wives' bureau at Canadian military headquarters in London, which serves all three services and also the fire fighters and the auxiliary services."

**War Casualties**  
WASHINGTON, Aug. 22.—(AP)—Nine crew members were killed and two officers and eight men were injured in the sinking of the minesweeper, *Salute June 8*, the navy reported yesterday. Loss of the vessel was announced June 20. Barbud wire was invented by Joseph Gilden in 1947.

# McNaughton Quits Cabinet: Abbott Named

Continued from Page One

long connection with Canadian defence. He is being appointed chairman of the Canadian section of the joint defence board. He will serve without salary.

**MINISTERS PRESENT**  
Mr. King and his first cabinet ministers, fought in the First Great War with the artillery and wore the two stripes of a bombardier when he took his discharge.

"I am exceedingly sorry to lose Gen. McNaughton from the ministry," said Mr. King. "I hope this is only a pause in a great career."

When a reporter asked if the general would devote his full time to the joint defence board, Gen. McNaughton replied the post would not require his full time, but he did not indicate whether he had other plans.

**REST IS SUGGESTED**  
"I hope the general will take a little time for rest," said Mr. King. "I don't know of any man who has carried greater responsibilities during the last year."

"The service Gen. McNaughton has rendered in Canada and to the world is so large that it will take time to be appreciated. I want to thank him for the assistance he has given to me and my colleagues in the government in the most difficult period of Canadian history."

He recalled that it was Gen. McNaughton who organized and led the 1st Canadian Division overseas in 1939, who conducted its training and who went on to organize, command and train the 1st Canadian Corps and then the 1st Canadian Army.

Gen. McNaughton relinquished his army command about the beginning of 1944 and returned to Canada and became defence minister in November, 1944, when Col. J. L. Ralston resigned because of a disagreement in the cabinet on conscription for overseas service.

**EXCEEDINGLY GRATEFUL**  
"I was exceedingly grateful that he came into the government at that time which I think was the most serious for Canada since the outbreak of war and the most serious for our army overseas," said Mr. King.

Had a different course been pursued, he went on, it was impossible to obtain a few grams of 235, that helped start the industrial fire.

(Tomorrow: How may destroy himself with the atomic bomb, but he can't destroy the earth.)

**MAY PAY OFF NOW**  
In about two years enough uranium 235 actually was separated for a bomb or other purposes. These methods may pay off richly now. For they can be used to make far more quickly and easily the concentrations of uranium with an en-

SUSIE Q SMITH—'Incidentally, what ARE your initials?'

If the fire is left running too long it will consume all the plutonium it has created. This is avoided by stopping the fire from time to time, and removing the uranium with plutonium in it.

Men probably never before undertook a task as difficult as the separation of uranium 235 from the more common metal. If 1,000,000 of these individual uranium 235 atoms were concentrated on the point of a pin they would still be invisible to human eyes without a microscope—and for many types of atoms even a microscope would not see that number.

The problem is like trying to recover a needle from a haystack 1,200 feet high but in this atomic world there are billions of such haystacks with one uranium needle in each. In 1941 when the separation was tackled, all the previous lack of science had been unable to produce enough of the common uranium in metallic form to make more than a few thin discs. There was no known method of producing the thousands of tons required.

**METHODS DEvised**  
Several of the largest industrial companies devised methods, but the final process was invented by scientists at Iowa State University under F. H. Spedding and J. C. Rooden of the national bureau of standards. The official description reads that their method is "extremely simple, rapid and low cost." It tells nothing more.

With uranium metal available, a far harder job was still ahead, the atomic haystacks. Actually six different methods were tried successfully to extract a little of the pure 235. They included vaporizing the metal, dissolving it in a liquid, whisking it in high speed centrifuges and electrolytic means.

The extraction in Tennessee fi-

to say what might have taken place in Canada or what would have been the effect on the forces overseas. Everything that had happened since showed that the right course had been followed.

(The government after making a new appeal for volunteers for overseas service proceeded to draft up to 15,000 more defence conscripts for dispatch overseas as reinforcements.)

Mr. King and his first cabinet ministers, fought in the First Great War with the artillery and wore the two stripes of a bombardier when he took his discharge.

"I am exceedingly sorry to lose Gen. McNaughton from the ministry," said Mr. King. "I hope this is only a pause in a great career."

# One Soldier Killed By Bazooka Bomb

CAMP BORDEN, Ont., Aug. 22.—(CP)—One soldier was killed and two wounded yesterday when an American bazooka bomb, which had landed some time previously on a practice range, exploded. Names have been withheld pending notification of next-of-kin.

The three men were members of a group which had been walking over to the bomb and then carried it back. When it exploded, the bomb was only 15 yards away from the rest of the party.

# Sugar Allotments Cut by Britain

LONDON, Aug. 22.—(CP)—Britain cut sugar allotments to manufacturers yesterday to bring national consumption within the limits of a transatlantic agreement with the United States and Canada. The agreement, limiting the per person consumption to 158 pounds per year, will not change Britain's domestic ration of two pounds per person per month.

ended the political career of a minister who held a cabinet post for almost 19 months without gaining a seat in the Commons.

**RESIGNED SEPT. 28**  
Gen. McNaughton's entry into politics last November came less than a year after he relinquished command of the Canadian Army overseas in 1943 for health reasons. He resigned from the army Sept. 28, 1944, and was promoted a full general. On Nov. 1 he was taken into the cabinet.

# Gets Gov. Post

WASHINGTON, Aug. 22.—(AP)—Col. Frank McCarthy of Richmond, Va., recently was appointed as assistant secretary of state. He will succeed Julius C. Holmes, who recently resigned as assistant secretary in charge of administrative affairs.

The role said Britain "would welcome elections which gave full and free opportunity for the expression of the opinions of the Bulgarians." But it considered the British government "was unable to believe that such an opportunity will result from the elections held under the present Bulgarian electoral law and in the conditions now obtaining in Bulgaria."

# U.K. Won't Accept Bulgarian Govt.

LONDON, Aug. 22.—(CP)—Britain told Bulgaria yesterday that she would be unable to recognize any "democratic or representative" Bulgarian government that came out of elections scheduled in the Balkan country next Sunday.

Britain said she did not believe that the elections in the Soviet-occupied country would be free under present electoral law and conditions, and charged reports of the intimidation of voters.

The British note was handed the Bulgarian prime minister during the day by the British political representative in Sofia. It was made public by the foreign office last night.

The note said Britain "would welcome elections which gave full and free opportunity for the expression of the opinions of the Bulgarians." But it considered the British government "was unable to believe that such an opportunity will result from the elections held under the present Bulgarian electoral law and in the conditions now obtaining in Bulgaria."

## Where's all the Coke gone anyway?

The answer, of course, is that there's a world-wide sugar shortage caused by the disorder and confusion of war. And a sugar shortage means a Coke shortage, for Coca-Cola never compromises with quality. Yes, there's one thing you can depend on—what Coke you DO get is the real thing.

# Find 2 Guards Are Accidentally Killed at Seebe

CALGARY, Aug. 22.—(CP)—A coroner's jury investigating the death of two guards at Seebe internment camp Sunday, last night found the men were "accidentally" killed by a bullet fired from an army rifle, held by Pte. M. Plumb.

Pte. John D. Kelly, of Hants County, N.S., and Pte. Ivor Bruce Mathias of Toronto, were killed as they and Pte. Plumb of Hamilton, Ont., and several other guards were being relieved.

Plumb said he operated the ball of a rifle which he thought was loaded. "I guess I pulled the trigger. I don't know," Plumb said on the witness stand.

**GUN NOT PLUMB'S**  
About six men were in the group and were forming up in a straight line preparatory to marching out of the gate of the prisoner-of-war enclosure at the final internment. The line-up had not been completed.

"The gun was not Plumb's, evidence showed. He had taken a loaded rifle when leaving the tower" where he had been on guard, instead of his own rifle, from which he had removed all cartridges only a few minutes previously.

Pte. Plumb, who said he had been in the army for six months, related his actions just prior to the shooting.

**PICKS WRONG RIFLE**  
"I came downstairs from the tower," he said, "emplied the five rounds from my rifle and put them in my pocket. The new guard came in the hut and said something about 'moving rifles around,' but I never noticed anything. I was lying on the bed."

Then he picked up a rifle, believing it to be his own and went outside to join the remainder of the guards going off duty.

"The officer of the guard inspects the rifles at the gate, and they are supposed to be empty," he explained. "I guess I was just checking it again. I don't even remember whether I pulled the trigger. It went off and I dropped it. I saw a cloud of smoke and it sounded like 'a blank.' I saw Mathias fall and then Kelly fell, and someone yelled 'get a doctor.' I ran to the medical inspection room for the medical officer."

**DIED WITHIN MINUTES**  
Medical officer, Lieut. Harold Krivick, said Pte. Mathias was dead or almost dead when he arrived, while Kelly was unconscious and suffering severely from shock and bleeding.

When Mathias was brought to the camp hospital a few minutes after he was definitely dead, and Kelly lived for only a short time, the officer said.

Lieut. J. C. Willocks, with another officer and two sergeants, inspected the rifle held by Plumb when the bullet was fired, and found an empty shell in the breach with four "live" cartridges in the magazine. The rifle was registered for Pte. Stanley Saltmarsh, who had gone on duty in the tower left by Plumb.

A rifle registered for Plumb was found inside the tower, and it was not loaded, Lieut. Willocks said.

**Argentine Govt.  
Says Plot Made  
Against Envoy**

BUENOS AIRES, Aug. 22.—(AP)—President Farrell's office said yesterday the Argentine government had learned of a plot to make a simulated attack on the diplomatic representative of a friendly country with the object of creating political difficulties.

The diplomatic corps was alerted by the announcement. The communiqué said the president "publicly denounce the reprehensible manoeuvre" and warned that the authors "will be punished as traitors with the full force of the law."

It is understood the Papal Nuncio, dean of the diplomatic corps, will call on Foreign Minister Oscar Alemán for details concerning the diplomatic personnel referred to and the measures being taken by the government.

**Removal of Duty  
On U.S. Anthracite  
Coal Is Proposed**

MONTREAL, Aug. 22.—(CP)—Recommendations for the removal of a duty on American anthracite and against the extension of freight subsidies on Canadian Maritime coal were heard yesterday by the royal commission investigating the Canadian oil industry. The commission listened to views of a number of coal distributors in the second and final day of its hearings in the Montreal area. The submissions fell into two groups—those concerned with anthracite used largely for domestic heating in the Montreal area, and those dealing with bituminous coal used for industrial purposes. In several briefs a readiness was expressed to extend the use of Canadian coal if it could be suitably prepared and sold at a competitive price with American fuels.

**Asks Approval  
Allies' Charter**

LONDON, Aug. 22.—(Reuters)—Ratification of the United Nations Charter was moved by the new Lord Chancellor, Lord Jowitt, in his maiden speech in the house of lords today. The charter remains the difference between life and death for civilization as we know it, he said.

LAFF-A-DAY—"I just love getting lost in this district!"

## Unprecedented Wave of Crime Sweeps Ontario

By The Canadian Press  
Across southern Ontario from Windsor to Kingston police activity was stepped up to an intensive tempo today in the wake of an all-most unparalleled surge of crime. There were slayings, major robberies and lesser thefts.

Windsor, on the United States border, was the scene of the greatest activity. There police are seeking the solution of three baffling killings, a daring \$10,000 robbery and other crime.

**BANDITS SOUGHT**  
To Windsor, and to Toronto as well, spread a search for two armed men who robbed the Royal Bank of Canada at Both near Kingston Aug. 17 or 18, as well as the hammer slaying of William Davies Aug. 16. They have announced that their chief suspect in the two slayings is a man whose name is given as Richard Henry Rowe, 51, former resident of New York state and of Grand Rapids, Mich.

Rowe is on a week's remand on a charge of carrying a concealed weapon—a knife which was found on him when he was arrested at a Windsor hotel. He is one of 20 or more men who have been picked up for questioning.

As well as continuing their investigation of the slayings, police in Windsor and Toronto are continuing their investigation of the slaying of Frank Sciegalski Aug. 8, and Sgt. Hugh Blackwood Price Aug. 17 or 18, as well as the hammer slaying of William Davies Aug. 16. They have announced that their chief suspect in the two slayings is a man whose name is given as Richard Henry Rowe, 51, former resident of New York state and of Grand Rapids, Mich.

Rowe is on a week's remand on a charge of carrying a concealed weapon—a knife which was found on him when he was arrested at a Windsor hotel. He is one of 20 or more men who have been picked up for questioning.

## Army to Continue Policy of Rounding Up Missing Men

OTTAWA, Aug. 22.—(CP)—End of the war has brought no change in the army's policy of rounding up home defence troops who went absent without leave last December following passage of an order-in-council conscripting NRMA men for overseas service, a defence headquarters spokesman said yesterday.

He added he had no figures available as to how many AWL men still were unaccounted at large.

"Every remaining AWL man eventually will be found and dealt with by a court martial," he said. There have been no figures issued on the number of missing draftees since April 6 when 4,082 of a total of 7,600 absentees were announced as being still at large.

made in the case. The robbers slugged a watchman and forced two cafeteria clerks to fill burlap bags with money.

**SMOOTH ROCK FALLS, Ont.**  
Aug. 22.—(CP)—Alex Mason, 38, assistant timekeeper of the Abitibi Pulp and Paper Company plant here, was found shot to death in the company's office late Sunday afternoon.

His body was slumped in a chair with wounds from three .22 calibre revolver bullets in his right side. A revolver was nearby. As yet police have made no arrests. Mason's wife lives at Smooth Rock Falls, about 100 miles northwest of Timmins, with their three children.

## Former Alberta Resident Longs For Sunny Climate, Good Friends

A longing for "Sunny Alberta, & its beautiful life and good friends" is expressed in a letter received by THE EDMONTON BULLETIN from a former resident of the province who spent

In 1927 Arne Hovberg came from Norway to Alberta, bringing his family with him, and lived there for 11 years. In 1938 he returned to his native land to live, and of the move he wrote, "I was a fool to leave Sunny Alberta for this northy, cold climate—and five years occupation by Nazi troops on top of it! But I am not one of the lucky ones who have foresight."

**10 IN FAMILY**  
The Horsberg family now numbers 10, and he said that presented many problems in trying to make ends meet. Food was scarce during the war years but he said they were never out of fuel, fish, potatoes, flour and fresh milk which they got from their three cows.

"Our diet mustack vitamins or something, because we have developed a lot of complexes—mainly an inferiority complex. Personally, I ascribe this to the clothing situation, which has been bad and still is, so bad that I will not go into details," he wrote.

The writer recalled a good friend, Tom Twilfteevee, who lived at New Norway. He is eager for news of

## Mrs. H. Young, Early Alberta Settler, Passes

One of the earliest pioneer settlers of Alberta, Mrs. Harrison Young died Monday afternoon at the home of her son, Frederick C. Young, 1249 127 street. She was 85 years of age and spent most of her lifetime in this district.

Before her marriage to the late Harrison Young she was Elizabeth McDougall, daughter of the Rev. George McDougall, minister of the Presbyterian church in this city. The McDougalls were the first white family to arrive in Alberta and she was only eight years old when they settled first at Paken, about 100 miles down river from Edmonton.

### RETURNED TO COLLEGE

In 1865 she returned east to a strict college at Hamilton, Ont., where she remained for five years. In 1871 she was married to Harrison Young, in a little white mission house where McDougall Church now stands. Her father, Mrs. Richard Hardy, wife of the chief factor at Fort Edmonton, and Nellie McDougall, who later became Mrs. Leslie Wood, attended the wedding. The early years of her married life were spent at northern points in Alberta on Fraser Lake and at La Biche, where her husband was a chief trader for the Hudson's Bay Company.

She vividly remembered the Indian rebellion of 1885 when the wandering braves invaded the kitchen of her lonely home and she was forced to flee with her five children. She was again in the country to meet her husband who was returning from Fort Edmonton with ammunition.

### DAUNTLESS SPIRIT

Mrs. Young exemplified the dauntless spirit of the early pioneers of the western wilderness and on three different occasions she made the trip to St. Paul, Minn., to the backwoods, camping by the trail in the howling weather was not an uncommon experience for her.

In 1888 she succeeded her sister as chaperone of the house of the Hudson's Bay factor at Fort Edmonton and except for a few years spent in the Peace River country she has made her home here ever since.

### THREE SONS SURVIVE

She is survived by three sons, William, of Yellowknife, George, of Edmonton, Sask., and Fred of Edmonton, two daughters, Mrs. Philip Roy, of Montreal, and Mrs. Albert Womack of Camrose.

A funeral service will be held on Thursday at 2 p.m. at Howard and McBride's chapel. The Rev. F. S. McCall will officiate and burial will be in the Edmonton cemetery.

## British Clothes Ration Reduced

LONDON, Aug. 22.—(Reuters).—Sir Stafford Cripps, president of the board of trade, announced yesterday a cut in Britain's already-slender clothes ration.

For the eight-month period from Sept. 1 to April 30, 1946, the allowance will be 24 coupons, he said. From Aug. 1, 1944 until the end of this month, a period of 12 months, Britons were allowed 45 coupons.

Sir Stafford said, however, "this should be the last period of acute rationing." He explained the drastic reduction as necessitated by a manpower shortage in the cotton industry.

## Seek to Alleviate Shortage of Labor In Packing Plants

OTTAWA, Aug. 22.—(CP).—High priority ratings are being given in an effort to alleviate labor shortage in Canadian meat packing plants, Arthur MacManus, deputy labor minister, said yesterday. The shortages "reared substantially the 1,000 mark."

Mr. MacManus said regional and local efforts to obtain workers. Shortages were reported from Toronto, Kitchener, Hamilton, London, Stratford, Guelph and Barrie in Ontario, and from Montreal and Hull in Quebec.

Four plants in the Vancouver district were short of men, while shortages were reported from Calgary and Edmonton.

SCUBURY CROWDS IN V-J DAY ROKS—Many windows like these were broken.

## Horticultural Society Officials Pleased With Success of Show

The first-hand beauty of fall spikes of gladioli form which attracted the eye of the visitor to the 27th annual exhibition of the Edmonton Horticultural Society being held Tuesday and Wednesday in the city market building. Officials of the association are pleased that in spite of unfavorable weather conditions for gardeners, their annual show lives up to the high standards it has set in previous years and find the enthusiastic comments of visitors to be most encouraging.

**FINE FRUIT EXHIBITS**  
H. C. Hunter, secretary of the association, drew particular attention to the fruit exhibits which this year are unusually well-filled with every class having its quota of exhibitors.

Visitors to the exhibition should not overlook the tuberoses, rooted begonias which are another feature of the exhibition, and which with the decorative classes form a charming corner of the building.

Stunning of the work which will find the displays of call to their liking. There are many attractive varieties of these strange plants arranged in a manner calculated to show them off to their best advantage.

The exhibition was opened on Tuesday evening by Hon. G. S. Gerhart, minister of trade and commerce, who remarked on the contribution horticulture as a science has made to the betterment of conditions for mankind. It has made possible by its growing of fruits and vegetables in climates once unusable to such growth.

**GREATER CONTRIBUTION**  
But the contributions made by people who have taken up horticulture as a hobby—and there are many such—Edmontonians have made a greater contribution in the same direction. Exhibitors' lighted gardens and the enthusiasm shown by the people of this city in horticulture form a strong argument in favor of the work of the association, said the minister, as he declared the exhibition officially open.

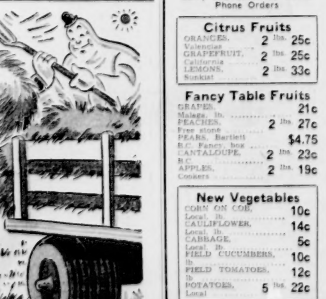

Flowers form only a part of the show, another corner of the building being occupied by displays of produce in which the interest on the part of exhibitors runs equally high with that of the flower growers. Attractive baskets of vegetables displaying great variety are a feature of this part of the exhibition.

At no time have the entries in the show, another corner of the building being completely filled, and now complete corner in the market building is occupied with the display of the different varieties.

Trophies will be presented to prize winners at 3:30 p.m. on Wednesday by Acting Mayor Garneau. The trophies will be presented to the winners of the different classes. The show will close later this evening. H. C. Hunter, 1249 127 street, arranged the most attractive basket of vegetables and carried off top honors in this class, while H. W. Nichols of 1249 84 street arranged the best basket of succulent salad vegetables.

Canadian Daughters League Challenge Cup for the best display of garden vegetables was won by John Swan, 1276 133 street.

**ORIGINAL DISPLAY**  
Mrs. R. W. Miller, 1215 112 avenue carried off first for her tasteful arrangements of flowers in the most original display, however.

HOMER

## Priority Granted For Vets' Homes

FLIN FLON, Sask., Aug. 22.—(CP).—The Hudson Bay Mining and Smelting Company has been granted a material priority for construction of 50 war veterans' homes in this northern mining town, it was announced Monday. It is hoped that all outside construction will be completed by winter. The project is under the jurisdiction of the National Housing Administration.

came to the fore again when they won the special awards for the best medals in the show and the best baskets and best vase in the show. J. Meyer, 800 13 avenue, exhibited a cup and the A. M. Kitch Challenge cup for the best gladioli.

J. H. Billingsley, 1127 67 street, took both the John LeFevre trophy and the Capitol Theatre cup for his magnificent displays of roses.

### MANY VARIETIES

Mrs. J. A. McNeil, 1130 92 street, carried off the honors with her display of call, a display which includes many odd varieties of these desert plants.

There is a large number of the novice classes was strong and F. Summer of Westlock was awarded the ribbon for best novice gladioli, while J. Martin, 1141 65 street, took the award for best novice sweet peas.

John Eley, 1124 84 street, took four firsts in the eight honey classes exhibited. J. Meyer, 800 13 avenue, taking three of the remainder, while L. Beggs, 1127 67 street, took one first in the novice class in first with the last competition.

A revolutionary method for fruit growing has been discovered by a British scientist which enables crops to withstand frost and prevents pre-harvest falls.

## If It's N-E-W, You'll Find It at EATON'S F-I-R-S-T!

## Award an Inexpensive Trophy!

If you have been asked to sponsor a trophy for a number of sports, baseball, speedball, tennis or golf, you will find a splendid collection of trophies at EATON'S.

The miniature cups with plastic bases, about 5 1/2" as pictured, are called "Oscar" and has a silver-plated base. It is a fine trophy of electro plated Britannia metal, each.
